Organized for easy navigation, each chapter features sub-sections that allow instant comparison between countries in a specific area of interest. The Islamic finance industry is the world's fastest growing sector, valued at over U.S. \$1.3 trillion by the UK Islamic Finance secretariat, with an annual growth of 24% for the past five years. To compete globally, practitioners need a true understanding of key markets within the industry. markets. Features include: Current macroeconomic and microeconomic conditions Regulatory and political situations Recent transactions, key participants, and the investor climate Real-world cases, as opposed to speculative scenarios The book places a clear focus on current conditions versus past performance, and on practical applications versus theoretical speculation.
