Sommario/riassunto	Don't just ride the technology train - drive it Today's children need an active environment, interdisciplinary curriculum, and project-based instruction that mirrors their lives outside the classroom. This book offers a cut-to-the-chase approach for busy principals who want to successfully stay ahead of the technology curve to enhance student learning. Filled with strategies and tools, this helpful resource shows school leaders how to: Develop a technology leadership team Implement professional development Assess technical needs, student learning, and teacher performance Address
