

1. Record Nr.	UNISALENTO991000962869707536
Autore	Moore, Calvin C.
Titolo	Group representations, ergodic theory, operator algebras, and mathematical physics : proc. of a conf. in honor of George W. Mackey. May 21 - 23, 1984 / ed. by C. C. Moore
Pubbl/distr/stampa	New York : Springer-Verlag, 1987
ISBN	0387964711
Descrizione fisica	vii, 278 p. ; 23 cm.
Collana	Mathematical sciences research institute publications ; 4
Classificazione	AMS 22E AMS 22E45 AMS 22E46 AMS 22E47 QA387.G75
Disciplina	512.55
Soggetti	Ergodic theory Lie groups Mackey, George Whitelaw Mathematical physics Operator algebras Representations of groups
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Conference/Meeting MSRI 1984

2. Record Nr.	UNINA9910809654203321
Autore	Riesberg Sonja
Titolo	Symmetrical voice and linking in western Austronesian languages // Sonja Riesberg
Pubbl/distr/stampa	Boston : , : De Gruyter Mouton, , [2014] ©2014
ISBN	1-5015-0066-X 1-61451-871-8
Descrizione fisica	1 online resource (256 p.)
Collana	Pacific linguistics, , 1448-8310 ; ; 646
Disciplina	499
Soggetti	Austronesian languages
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Front matter -- Acknowledgements -- Contents -- Abbreviations -- 1 Introduction -- 2 The Symmetry of the Voices in Indonesian, Balinese, Totoli, and Tagalog -- 3 Linking Semantic Arguments to Syntax -- 4 Coreness, Obliqueness, and the Status of the Passive Actor -- 5 A Modified LFG Approach to Linking -- 6 Conclusion -- Appendix -- References -- Index of subjects
Sommario/riassunto	This book is an in-depth study of the voice systems of Totoli, Balinese, Indonesian, and Tagalog, which shows that the symmetrical nature of these systems poses a problem to current linking theories. It provides an analysis of symmetrical linking within two grammatical theories (LFG & RRG) and develops a modified LFG linking mechanism that sheds light on the differences as well as the similarities of symmetrical and asymmetrical voice systems.
