

1. Record Nr.	UNINA9910809672603321
Autore	Rea William J.
Titolo	Reversibility of chronic degenerative disease and hypersensitivity // William J. Rea, Kalpana Patel
Pubbl/distr/stampa	Boca Raton, Fla. : , : CRC Press, , [2010]
ISBN	0-429-13052-X 1-4398-1346-9
Descrizione fisica	1 online resource (408 p.)
Altri autori (Persone)	PatelKalpana
Disciplina	616.044
Soggetti	Chronic diseases Chronic diseases - Control Multiple chemical sensitivity
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	Front Cover; Contents; Preface; Acknowledgments; Authors; Chapter 1: Introduction; Chapter 2: Entry of Environmental Pollutants : External and Internal Mechanisms of the Total Body Pollutant Load; Chapter 3: Environmental Control for Reducing Total Body Load; References for Section I; Chapter 4: Introduction to the Cardiovascular System in Chemical Sensitivity; Chapter 5: Physiology and Pollutant Damage to Vascular Perfusion : Changes in the Sympathetic Nervous System Function; Chapter 6: Blood Volume; Chapter 7: Effects of Pollutants on the Clotting System; Chapter 8: Oxygen Extraction Chapter 9: Effects of Pollutants on Myocardial CellsChapter 10: Types of Mechanisms in Vascular Damage; Chapter 11: Effects of Endocrines on the Vascular System; Chapter 12: Pollutant Entry in Dyshomeostasis : Clinical Syndromes; Chapter 13: Atherosclerosis; Chapter 14: Heart Failure; Chapter 15: Heart Failure Treatment; References for Section II; Back Cover
Sommario/riassunto	Encyclopedic in scope, Reversibility of Chronic Degenerative Disease and Hypersensitivity, Volume 3: Environmental Manifestations of the Neurocardiovascular Systems draws deeply from clinical histories of thousands of patients. It focuses on clinical syndromes within the musculoskeletal, neurological, and cardiovascular systems with a

special focus on vascular dysfunction and heart failure treatment. The book explores mechanisms of chemical sensitivity and chronic degenerative disease, their manifestations, diagnosis, and approaches to reverse dysfunction. It covers a wide variety of topics in
