

1. Record Nr.	UNINA9910809709003321
Autore	Israel Martin
Titolo	Learning to love // Martin Israel and Neil Broadbent
Pubbl/distr/stampa	London ; ; New York : , : Mowbray, , [2001] ©2001
ISBN	1-282-71012-5 9786612710124 1-4411-2237-0
Descrizione fisica	1 online resource (129 p.)
Collana	Contemporary Christian Insights
Disciplina	241.4
Soggetti	Love - Religious aspects - Christianity
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di contenuto	Contents; Foreword; Acknowledgements; 1. The Foundation of Existence: God and Creation; 2. Jesus: Servant and Christ; 3. The Holy Spirit: The Lord, the Giver of Life; 4. The Religious Quest: The Search for Truth; 5. Faith and Reason: The Two ways of Approaching Truth; 6. A Loving God: With so Much Suffering in the World?; 7. A Sacramental Way: Seeing Holiness in Everything; 8. False Gods and Human Crutches: The Power of Illusion in Life; 9. The Company we Keep: What we do with our thoughts and Feelings; 10. Humiliation and Humility: The way to Acceptable Behaviour 11. Fear, Failing and Forgiveness: The way of Spiritual Growth 12. Ages and Stages of the Spiritual Path: The Education of the will; 13. The Prosaic Encounter with God: The Discipline of Dailyness; 14. The Word of God: Creation and Regeneration; 15. The Sequel to a Life: The Four Last Things; 16. The Mystical Walk: Our way in Christ; Notes; Further Reading and Resources
Sommario/riassunto	In this new book, Martin Israel explores the question: How can we learn to obey the commandment to love our neighbor? Through powerful meditations on the nature and responsibilities of existence and love Israel shows to his readers some of paths for the mystical walk that ends in love. He writes:One does not believe in God; one knows Him by experience, and that experience makes all life's vicissitudes worth

while. For this end is glorious [and] as one grows so one's vision expands to include all humanity and ultimately all that lives.

2. Record Nr.	UNINA9911020209803321
Titolo	Commercial fishing : the wider ecological impacts // edited by Geoff Moore & Simon Jennings

Sommario/riassunto

Fishing provides food, income and employment for millions of people. However, fishing has environmental costs that threaten rare species, marine ecosystems and the sustainability of the resource. Based on the research expertise of leading scientists, *Commercial Fishing: the Wider Ecological Impacts* provides a lively, timely and accessible account of fishing activities and their impacts on marine habitats, biodiversity and species of conservation concern. It covers fishing methods that range from trawling in the Antarctic to fishing with dynamite in the tropics. The authors s
