Friedland -- Do migrants have an enforceable right to healthcare in international human rights law? / Sue Willman -- International health worker migration : global inequality and the right to health / Rebecca Shah -- Socioeconomic vulnerability and access to healthcare among immigrants in Chile / Baltica Cabieses and Helena Tunstall
Sommario/riassunto	Migration, Health and Inequality highlights recent developments in the areas of migration, human rights and health from a range of countries. Looking at diverse health issues, from HIV to reproductive and maternal health, and a variety of forms of migration, including asylum-seeking, labour migration and trafficking, it offers a range of linkages between migrant agency, transnationalism and diaspora mechanisms and looks at the impact of migrant health on those communities that are left behind.
