Sommario/riassunto

This volume contains a selection of fifteen papers presented at three consecutive meetings of the Society for Pidgin and Creole Linguistics, held in Washington, D.C. (January 2001); Coimbra, Portugal (June 2001); and San Francisco (January 2002). The fifteen articles offer a balanced sampling of creolists' current research interests. All of the contributions address questions directly relevant to pidgin/creole studies and other contact languages. The majority of papers address issues of morphology or syntax.
