Sommario/riassunto	In "A Physician's Guide to Coping with Death and Dying" Jan Swanson and Alan Cooper, a physician and a clinical psychologist with many years of experience, offer insights to help medical students, residents, physicians, nurses, and others become more aware of the different stages in the dying process and learn how to communicate more effectively with patients and their families. They also discuss the ways physicians and other caregivers can learn to reduce their own stress levels and avoid the risk of burnout, allowing them to achieve balance

in their lives and be more effective professionally.
