

1. Record Nr.	UNINA9910809841003321
Autore	Chomitz Kenneth M
Titolo	Climate change and the World Bank Group : phase 1, an evaluation of World Bank win-win energy policy reforms
Pubbl/distr/stampa	Washington, D.C., : World Bank, 2009
ISBN	1-282-13626-7 9786612136269 0-8213-7855-4
Edizione	[1st ed.]
Descrizione fisica	xxxix, 127 pages : illustrations (some color), map ; ; 28 cm
Collana	Independent Evaluation Group Studies
Disciplina	333.794
Soggetti	Energy policy - Environmental aspects Climatic changes - Economic aspects Climatic changes - Government policy Greenhouse gas mitigation Economic development - Environmental aspects Environmental policy
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	At head of title: IEG World Bank. "Kenneth Chomitz was the evaluation manager and main author for this study"--P. xiii.
Nota di bibliografia	Includes bibliographical references (p. 123-127).
Nota di contenuto	Contents; Abbreviations and Terminology; Glossary; Acknowledgments; Foreword; Executive Summary; Management Response; Chairperson's Summary; Committee on Development Effectiveness (CODE); Statements by the External Review Panel: Climate Evaluation, Phase I; 1 Introduction, Scope, and Motivation; Figures; Tables; 2 National Policies and Climate Change; Boxes; 3 World Bank Operations and Climate Change; 4 Subsidies and Energy Pricing; 5 Efficiency Policies; 6 Natural Gas Flaring; 7 Findings and Recommendations; Appendixes; Endnotes; References
Sommario/riassunto	Climate change threatens to derail development, even as development pumps ever-greater quantities of carbon dioxide into an atmosphere already polluted with two centuries of Western emissions. The World Bank, with a newly-articulated Strategic Framework on Development and Climate Change, must confront these entangled threats in helping

its clients to carve out a sustainable growth path. This evaluation assesses the Bank's experience with key win-win policies in the energy sector.
