Sommario/riassunto	Aspects of Hobbes is a major event in the study of Thomas Hobbes (1588-1679), one of the giants of early modern thought. These essays are the fruit of many years' research by one of the world's leading Hobbes scholars. Noel Malcolm offers not only succinct introductions to Hobbes's life and thought, but also path-breaking studies of many different aspects of his political philosophy, his scientific and religious theories, his relations with his contemporaries, the sources of his ideas,

the printing history of his works, and his influence on European
thought. - ;Noel Malcolm, one of the world's
