

1. Record Nr.	UNINA9910810028703321
Titolo	Sediments, morphology, and sedimentary processes on continental shelves : advances in technologies, research and applications // edited by Michael Z. Li, Christopher R. Sherwood, Philip R. Hill
Pubbl/distr/stampa	Chichester [England], : IAS, 2012
ISBN	1-118-31117-5 1-283-44905-6 9786613449054 1-118-31118-3
Edizione	[1st ed.]
Descrizione fisica	1 online resource (442 p.)
Collana	Special publication ... of the International Association of Sedimentologists ; ; no. 44
Altri autori (Persone)	LiMichael Z SherwoodChristopher R HillPhilip R
Disciplina	551.3/03
Soggetti	Sedimentation and deposition Sedimentology Sediment transport Continental margins
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	pt. 1. Sediments and morphology in shelf and coastal systems -- pt. 2. Sediment transport processes, sedimentation and modelling -- pt. 3. Application and management.
Sommario/riassunto	The application of multibeam and sediment transport measurement technologies and the adoption of multi-faceted research methodologies have greatly advanced our understanding of the sedimentary processes on continental shelves in the last decade. This book uniquely blends cutting-edge research and state-of-the art review articles that take stock of new advances in multibeam mapping and sediment transport technologies, spatial analysis and modelling, and the applications of these advances to the understanding of shelf sediments, morphodynamics, and sedimentary processes. Case studies are also
