Nota di contenuto	Descent into inhumanity -- The unconditional surrender formula and limited alternatives to atomic bombs : pros and cons -- The Potsdam Declaration: a missed opportunity by Japan to avoid atomic bombings and a Soviet entry -- That "final decisive battle" -- The role of decrypted messages -- Japan's decision to wage a final decisive battle produced the atomic bombing of Hiroshima, the first of the "triple shocks" -- Two shocks in one day -- Militants' intransigent response: extinction before surrender -- Contentious issues surrounding the atomic bombings, the mistaken "atomic diplomacy" thesis, and its impact on Japanese textbooks -- Conclusion -- Appendix A:

Supplemental commentary - diplomacy at start and end of Japan-US war, and subsequent problems -- Appendix B: regarding Wray's examination of the Pearl Harbor issue -- Appendix C: The historical significance of President Obama's visit to Hiroshima -- Afterword.

Sommario/riassunto

"In this study, two scholars examine historical perceptions of the atomic bombings of Hiroshima and Nagasaki. Structured as a balanced dialogue, the authors analyze how the attacks are remembered by Japanese and others as well as the various debates surrounding the bombings."--Provided by publisher.
