Sommario/riassunto	As we enter a Mundus Urbano, urban issues become even more central to many professions related to planning. This situation not only reinforces long identified challenges but also generates new ones for which planners from all different fields of inquiry have to re-think their own practice. This book gathers works that reflect recent challenges examined by the fresh eyes of young professionals brought together to stretch conventions towards an innovative approach to urban studies. The reader will find world-wide as well as more localised study cases in four chapters that embed the most up-to-da
