Edizione	[2nd ed.]
Descrizione fisica	1 online resource (xii, 222 pages) : digital, PDF file(s)
Altri autori (Persone)	IsonR. L
Disciplina	633.2/02
Soggetti	Pastures Grasses Range management
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Title from publisher's bibliographic system (viewed on 05 Oct 2015).
Nota di bibliografia	Includes bibliographical references (p. 188-217) and index.
Nota di contenuto	Cover; Half-title; Title; Copyright; Contents; Preface; Chapter 1 Overview: perspectives on grassland systems; Chapter 2 The emergence of grassland systems; Chapter 3 Generation; Chapter 4 Vegetative growth; Chapter 5 Flowering and seed production; Chapter 6 Mineral nutrition; Chapter 7 Herbage quality and animal intake; Chapter 8 Grassland...animal interactions and management; Chapter 9 Grassland systems design; References; Index
Sommario/riassunto	The challenges facing grassland agronomists are becoming increasingly complex, with environmental and ethical issues assuming a greater significance alongside more conventional technical aspects. This new expanded edition, with an increased emphasis on systems thinking, has been revised to reflect current concerns, knowledge and practice. As

such it addresses the need for a different approach to grassland agronomy, providing novel and provocative material to instruct, stimulate and enthuse the reader.
