Sommario/riassunto	Ability Profiling and School Failure: One Child's Struggle to Be Seen as Competent explores the social and contextual forces that shape the appearance of academic ability and disability and how these forces influence the perception of academic underachievement of minority

1.

students. It is a powerful case study of a competent fifth grader, an African American boy growing up in a predominantly white, rural community, who was excluded from participating in science and literacy discourses within his classroom community. The case study form allows for the integration of the story of
