

1. Record Nr.	UNINA9910810260603321
Autore	Agresti Alan
Titolo	Analysis of ordinal categorical data / / Alan Agresti
Pubbl/distr/stampa	Hoboken, N.J., : Wiley, c2010
ISBN	9786613855206 9781118209998 1118209990 9781283542753 1283542757 9780470594001 0470594004 9780470593998 0470593997
Edizione	[2nd ed.]
Descrizione fisica	1 online resource (xi, 396 pages) : illustrations, tables
Collana	Wiley series in probability and statistics
Disciplina	519.5/35
Soggetti	Multivariate analysis
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and indexes.
Nota di contenuto	Basic Results for Cross-Classification Tables. Associations in Multidimensional Tables. Data Analysis Using Loglinear Models. Loglinear Models for Ordinal Variables. Logit Models. Logit Models for an Ordinal Response. Other Models for Ordinal Variables. Measures of Association for Ordinal Variables. Inference for Ordinal Measures of Association. Square Tables with Ordered Categories. Comparison of Ordinal Methods. Appendixes. Bibliography. Index.
Sommario/riassunto	Statistical science's first coordinated manual of methods for analyzing ordered categorical data, now fully revised and updated, continues to present applications and case studies in fields as diverse as sociology, public health, ecology, marketing, and pharmacy. Analysis of Ordinal Categorical Data, Second Edition provides an introduction to basic descriptive and inferential methods for categorical data, giving thorough coverage of new developments and recent methods. Special emphasis is placed on interpretation and application of methods

including an integrated comparison of the avail
