Edizione	[1st ed.]
Descrizione fisica	1 online resource (278 p.)
Collana	Routledge global security studies ; ; 21
Disciplina	363.11/93337924
Soggetti	Nuclear energy - Security measures Nuclear industry Nuclear nonproliferation
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Assessing a nuclear energy revival : the drivers -- Assessing the nuclear revival : the constraints -- Assessing the "revival" -- The current status of global nuclear governance : the nuclear safety regime -- The current status of global nuclear governance : nuclear security and nonproliferation -- Implications of the nuclear revival for global governance.
Sommario/riassunto	The book considers the implications of the nuclear energy revival for global governance in the areas of safety, security and non-proliferation. Increased global warming, the energy demands of China, India and other emerging economic powerhouses and the problems facing traditional and alternative energy sources have lead many to suggest that there will soon be a nuclear energy 'renaissance'. This book examines comprehensively the drivers of and constraints on the revival, its nature and scope and the possibility that nuclear power will spread significantly beyond the countries which currently re
