Sommario/riassunto

The first volume in the Silk Road Studies in International Economic Law Series, *China and International Investment Law: Twenty Years of ICSID Membership* examines cutting-edge issues of international investment law and arbitration in interaction with China, the second largest economy of the world. With particular attention to ongoing major negotiations of bilateral and regional investment treaties, including the TPP, TTIP and China's BIT negotiations with the EU and USA, the collection is timely, thorough, and incisive. All readers with an interest in the latest developments in international investment law in general, and the Chinese foreign investment regime in particular, will find an indispensable new resource in this collection of essays from esteemed experts in the field. The volume originated from the "China and ICSID" International Workshop and Roundtable on International Investment Law and Arbitration, organized to commemorate the 20th anniversary of China's accession to the ICSID Convention.
