

1. Record Nr.	UNINA9910810416003321
Titolo	Applied plastics engineering handbook : processing and materials // edited by Myer Kutz
Pubbl/distr/stampa	Waltham, Mass., : William Andrew, an imprint of Elsevier, 2011
ISBN	1-283-16930-4 9786613169303 1-4377-3515-0
Edizione	[1st ed.]
Descrizione fisica	1 online resource (661 p.)
Collana	PDL handbook series
Altri autori (Persone)	KutzMyer
Disciplina	668.4 668.9
Soggetti	Plastics
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	pt. 1. Plastics, elastomeric and nanocomposite materials -- pt. 2. Biobased polymers and recycling -- pt. 3. Plastic processing -- pt. 4. Additives, colorants and fillers -- pt. 5. Design and applications.
Sommario/riassunto	A practical reference for all plastics engineers who are seeking to answer a question, solve a problem, reduce a cost, improve a design or fabrication process, or even venture into a new market. Applied Plastics Engineering Handbook covers both polymer basics - helpful to bring readers quickly up to speed if they are not familiar with a particular area of plastics processing - and recent developments - enabling practitioners to discover which options best fit their requirements. Each chapter is an authoritative source of practical advice for engineers, providing authoritative guidanc
