make about school geography?; Summary of key findings; What does this all mean? Discussion and implications; Concluding thoughts; References; Index

Sommario/riassunto

Gaining a better sense of how pupils conceive school geography is crucial if we are to understand the ways in which their ideas and values mediate learning processes. Geography in Secondary Schools explores how pupils experience geography lessons, what they think geography as a school subject is about, and what it means to them. School geography aims to help young people think about the world and their place in it in a distinctive geographical way, however very little is known about the kinds of thinking and values they associate with the subject. Researchers are increasingly taking young peopl
