Sommario/riassunto	This is a book on the good practice of mentoring written by scholars and practitioners in education, health and industry. It considers the roles of the mentor-mentee in changing workplaces affected by

external forces including technology, the economy and the dismantling of middle- management structures, and offers guidelines for those who seek good practice, and the nurturing of the individual in a caring and collaborative culture.; A brief history of mentoring and its subsequent usage is presented, with special attention paid to the gender issues. New concepts such as ""shadowing""
