Record Nr. UNINA9910810476603321 Autore Hu Sen Titolo Lecture notes on Chern-Simons-Witten theory / / Sen Hu Singapore;; River Edge, NJ,: World Scientific, c2001 Pubbl/distr/stampa **ISBN** 981-238-657-2 Edizione [1st ed.] Descrizione fisica 1 online resource (200p.) Altri autori (Persone) WittenE 530.14/3 Disciplina Gauge fields (Physics) Soggetti Geometric quantization Invariants Quantum field theory - Mathematics Three-manifolds (Topology) Lingua di pubblicazione Inglese **Formato** Materiale a stampa Livello bibliografico Monografia Based in part on lectures presented by E. Witten at Princeton University Note generali in the spring of 1989. Nota di bibliografia Includes bibliographical references and index. Nota di contenuto Examples of quantizations; classical solutions of gauge field theory; quantization of Chern-Simons action; Chern-Simons-Witten theory and three manifold invariant; renormalized perturbation series of Chern-Simons-Witten theory; topological sigma model and localization. Appendices: complex manifold without potential theory, S.S. Chern; geometric quantization of Chern-Simons gauge theory, S. Axelrod, S.D. Pietra and E. Witten; on holomorphic factorization of WZW and Coset models, E. Witten. Sommario/riassunto This work is based on Witten's lectures on topological quantum field theory. Sen Hu has included several appendices providing detals left

some developments.

out of Witten's lectures, and has added two more chapters to update
