

1. Record Nr.	UNINA9910810576503321
Titolo	Sustainability and sustainability and self-reliance of national nuclear institutions : proceedings of a workshop / / International Atomic Energy Agency
Pubbl/distr/stampa	Vienna : , : International Atomic Energy Agency, , 2021
ISBN	92-0-134521-6
Descrizione fisica	1 online resource (128 pages) : illustrations
Collana	IAEA TECDOC Series ; ; 1943
Disciplina	621.48
Soggetti	Nuclear power plants Nuclear energy - Government policy Nuclear industry Sustainability
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	"National nuclear institutes (NNIs) contribute significantly to national development, providing services focused on developing and applying relevant technologies for the public good. While many NNIs provide commercial services and products that generate revenue, some are financially dependent on subsidies from national governments. This publication presents the outcome of a workshop which addressed the challenges for Member States regarding self-reliance and sustainability of their NNIs. Participants discussed efforts and best practices to cope with these challenges. The publication includes positive examples of tools or measures to be used in practical projects and programmes for achieving management goals towards self-reliance and sustainability. Examples of governmental policies in support of self-reliance and sustainability of NNIs are also presented. Finally, the country presentations in this publication show some examples of how NNIs cooperate with public or private stakeholders, providing some insights on how partnership opportunities can be explored."--Publisher's description
