

1. Record Nr.	UNINA9910810732203321
Autore	Ware Colin
Titolo	Information visualization : perception for design / / Colin Ware
Pubbl/distr/stampa	Amsterdam ; ; Boston, : Elsevier/MK, c2013
ISBN	1-283-73510-5 0-12-381465-0
Edizione	[3rd ed.]
Descrizione fisica	1 online resource (537 p.)
Collana	Interactive Technologies
Disciplina	152.14
Soggetti	Information visualization Visual perception Visualization
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Front Cover; Preface; About the Author; Appendix A: Changing Primaries; Appendix B: CIE Color Measurement System; Appendix C: The Perceptual Evaluation of Visualization Techniques and Systems; Appendix D: Guidelines; Bibliography; Index; A; C; D; E; F; G; H; I; J; K; L; M; N; O; P; Q; R; S; T; U; V; W; Y; Z
Sommario/riassunto	Most designers know that yellow text presented against a blue background reads clearly and easily, but how many can explain why, and what really are the best ways to help others and ourselves clearly see key patterns in a bunch of data? When we use software, access a website, or view business or scientific graphics, our understanding is greatly enhanced or impeded by the way the information is presented. This book explores the art and science of why we see objects the way we do. Based on the science of perception and vision, the author presents the key principles at work for a wide range of applications.
