Sommario/riassunto

The prehistories of Britain and Ireland are inescapably entwined with continental European narratives. The central aim here is to explore 'cross-channel' relationships throughout later prehistory, investigating the archaeological links (material, social, cultural) between the areas we now call Britain and Ireland, and continental Europe, from the Mesolithic through to the end of the Iron Age. Since the separation from the European mainland of Ireland (c. 16,000 BC) and Britain (c. 6000 BC), their island nature has been seen as central to many aspects of life within them, helping to define thei
