

1. Record Nr.	UNINA9910810803803321
Titolo	Advancing disease modeling in animal-based research in support of precision medicine : proceedings of a workshop // Erin Hammers Forstag and Lida Anestidou, rapporteurs ; Roundtable on Science and Welfare in Laboratory Animal Use, Institute for Laboratory Animal Research, Division of Earth and Life Studies, the National Academies of Sciences, Engineering, Medicine
Pubbl/distr/stampa	Washington, DC : , : The National Academies Press, , [2018] ©2018
ISBN	0-309-47119-2 0-309-47117-6
Descrizione fisica	1 online resource (xiii, 122 pages) : illustrations
Disciplina	616.0754
Soggetti	Animal models in research Precision medicine
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Introduction to precision medicine and animal models -- Existing precision medicine initiatives -- The promise and perils of animal models -- Reproducibility and predictivity -- In vitro alternatives to animal models -- Assessing safety and toxicology -- Patient perspectives -- Reflections on the workshop -- References.
Sommario/riassunto	"Precision medicine is focused on the individual and will require the rapid and accurate identification and prioritization of causative factors of disease. To move forward and accelerate the delivery of the anticipated benefits of precision medicine, developing predictable, reproducible, and reliable animal models will be essential. In order to explore the topic of animal-based research and its relevance to precision medicine, the National Academies of Sciences, Engineering, and Medicine convened a 2-day workshop on October 5 and 6, 2017. The workshop was designed to focus on the development, implementation, and interpretation of model organisms to advance and accelerate the field of precision medicine. Participants examined the

extent to which next-generation animal models, designed using patient data and phenotyping platforms targeted to reveal and inform disease mechanisms, will be essential to the successful implementation of precision medicine. This publication summarizes the presentations and discussions from the workshop"--Publisher's description.
