Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and indexes.
Nota di contenuto	Section I. Editorial -- Section II. White Paper -- Section III. Critical Reviews -- Section IV. Evaluation Studies -- Section V. Original Research -- Section VI. Clinical Observations -- Section VII. Work in Progress.
Sommario/riassunto	Technological advances have been responsible for many developments in the field of healthcare in recent years. One of the areas opened up by new technological possibilities is that of cybertherapy and telemedicine, which involves the use of computer and communications technology to provide improved health services that are sometimes qualitatively different from those provided in traditional in-person therapeutic experiences.This book, the Annual Review of Cybertherapy and Telemedicine (ARCTT), covers a wide variety of topics of interest to the mental health, neuroscience and rehabilitation com
