| Nota di contenuto | Preliminaries; Contents; Acknowledgements; Glossary of terms; Executive summary; Introduction; Background; Mother to child transmission; HIV transmission through breastfeeding; Preventing transmission through breastfeeding; Current or planned research; References |
| Sommario/riassunto | This book presents a summary of the available scientific evidence on the transmission of HIV infection through breastfeeding. It briefly describes the benefits of breastfeeding for both mothers and infants; and summarizes evidence on the relative risk of mother-to-child transmission of HIV-1 infection during pregnancy, delivery, and breastfeeding. |
