learner / Jane Conway and Margaret McMillan.

Sommario/riassunto

This engagingly written text offers nursing students comprehensive ideas and perspectives that are basic to the practice of contemporary nursing. Each chapter focuses on a foundational area of study and explores the central concepts, relevant issues, dilemma, and debates. It presents a broad-range of professional issues, ranging from a brief history of nursing in the U.S., research and legal issues, to an introduction to nursing organizations and regulatory bodies.
