Sommario/riassunto

The sixteenth-century French poets Pierre de Ronsard and Guillaume Du Bartas enjoyed a wide, immediate and long-lasting, but varied and mixed reception throughout early modern Europe. This volume is the first book length monograph to study the transnational reception histories of both poets in conjunction with each other. It takes into account the great variety of their readerships, including translators, imitating poets, poetical theorists, illustrators and painters, both male and female (Marie de Gournay, Anne Bradstreet), some of them illustrious (Tasso, King James VI and I of Scotland and England, Opitz...), others less known, even obscure, but worth to be saved from oblivion (such as the French Marc-Antoine Chalon, the English Mary Roper, and the Dutch poet Philibert van Borssele). This volume offers a fascinating insight into the different reception modes in Europe and their underlying political, religious and literary identities.
