

1. Record Nr.	UNINA9910811015603321
Autore	Szasz Thomas
Titolo	Psychiatry : The Science of Lies
Pubbl/distr/stampa	[Place of publication not identified] : , : Syracuse University Press, , 2019 ©2019
ISBN	0-8156-5044-2
Descrizione fisica	1 online resource (148 pages)
Disciplina	616.89001
Soggetti	Medical jurisprudence Mental health Abnormal psychology Psychiatry Wertethik Psychiatrie Krankheitsbegriff Psychische Störung Psychology, Pathological Psychiatry - Philosophy Mental health - Philosophy Malingering Deception Attitude to Health Psychiatry - trends
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Intro; Title Page; Copyright; About the Author; Contents; Preface; Acknowledgments; Introduction: The Invention of Psychopathology; 1. Malingering; 2. Doctoring; 3. Inculpating; 4. Sheltering; 5. Cheating; 6. Lying; Epilogue: The Burden of Responsibility; Notes; Bibliography; Index
Sommario/riassunto	"For more than half a century Thomas Szasz has devoted much of his

career to a radical critique of psychiatry. His latest work, *Psychiatry: The Science of Lies*, is a culmination of his life's work: to portray the integral role of deception in the history and practice of psychiatry."

"Szasz argues that the diagnosis and treatment of mental illness stands in the same relationship to the diagnosis and treatment of bodily illness that the forgery of a painting does to the original masterpiece. Art historians and the legal system seek to distinguish forgeries from originals. Those concerned with medicine, on the other hand - physicians, patients, politicians, health insurance providers, and legal professionals - take the opposite stance when faced with the challenge of distinguishing everyday problems in living from bodily diseases, systematically authenticating nondiseases as diseases. The boundary between disease and nondisease - genuine and imitation, truth and falsehood - thus becomes arbitrary and uncertain."--Jacket.
