Nota di contenuto	pt. 1. Identification -- pt. 2. Medical interventions -- pt. 3. Psychological interventions -- pt. 4. Contemporary issues in identification and treatment -- pt. 5. Clients with complex needs -- pt. 6. Reproductive and developmental concerns.
Sommario/riassunto	Colin Martin has brought together an excellent set of contributors to produce a truly comprehensive text that will ensure all interested professionals can not only update their knowledge but also better understand each other's roles and how best to help patients and clients through shared working to achieve a common goal of better health. This book is not just for people who see themselves as having a primary role in the field, but also for those - teachers, the police and family members - who live daily with its effects. Professor Dame Betty Kershaw , University of Sheffield, UKAlcohol dependen
