Sommario/riassunto	In the past 30 years, the study of bilingualism processing has been conducted independently by two fields, psycholinguistics and sociolinguistics. This volume merges these two fields, addressing one of the tough problems dividing researchers in bilingualism, conceptually as well as methodologically. Joel Walters proposes a new approach to bilingualism processing--the Sociopragmatic-Psycholinguistic (SPPL) Model--which presents language as a social phenomenon. The author accomplishes this by identifying and organizing evidence from a wide range of linguistic disciplines, merging sociopragmatics
