Sommario/riassunto

For several decades internationalisation has been a cornerstone of both Japanese government higher education policy and approaches to reform at an institutional level, but Japan has still not managed to lose its reputation as a somewhat reclusive member of the global academic community. Consensus on the potential of internationalisation to reinvigorate Japanese higher education is matched by the depth of recognition that universities have, to date, failed to internationalise successfully. This book offers a new approach to Japan's internationalisation conundrum by proceeding from the
