

1. Record Nr.	UNINA9910811249303321
Autore	Kibel Paul Stanton
Titolo	The earth on trial : environmental law on the international stage // Paul Stanton Kibel
Pubbl/distr/stampa	New York : , : Routledge, , 1999
ISBN	1-135-96258-8 1-135-96259-6 1-280-31681-0 0-203-90180-0
Edizione	[1st ed.]
Descrizione fisica	1 online resource (215 p.)
Disciplina	341.7/62
Soggetti	Environmental law, International Conservation of natural resources - Law and legislation
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references (p. [163]-186) and index.
Nota di contenuto	Book Cover; Title; Contents; First Ink: Publication Credits; Acknowledgments; Acronym List; Introduction: Sharp Teeth; City Limits: Urban Ecology and Economic Justice; Roughshod: Northwest Forests and the Constitution; Blaming Wildlife: The Endangered Endangered Species Act; Words to Choke On: Free Speech and Environmental Debate; Ignorance Abroad: International Projects Under National Law; Axe to the Myth: Canadian Logging and International Law; Ecology After the USSR: Hard Times for Russian Environmental Law; United by Poison: Relief for Bhopal's Victims Refoliating Vietnam: A Second War for the Forests A Difficult Swim: The Sea Turtle Navigates GATT; Trees Falling: Forests and the Timber Trade; The Depths of Europe: Lessons for North America; Conclusion: Commonplace Ideas; Selected Resource Guide; Selected Bibliography; Suggested Further Reading; Notes; Index
Sommario/riassunto	The Earth on Trial examines the degree to which the law has accommodated an increased understanding of the natural environment. Paul Stanton Kibel provides a clear assessment of what conceptual and practical changes are needed to reconcile law to the limits of ecology. By moving the debate between law and the environment beyond

specialists, and towards a public forum, The Earth on Trial acknowledges that a healthy environmental future depends not so much on our ability to alter nature to accommodate society, as our ability to alter society to accommodate nature.
