

1. Record Nr.	UNINA9910811254703321
Autore	Tangredi Sam J
Titolo	Anti-access warfare : countering A2/AD strategies // Sam J. Tangredi
Pubbl/distr/stampa	Annapolis, Maryland : , : Naval Institute Press, , 2013
ISBN	1-68247-898-X 1-61251-187-2
Descrizione fisica	1 online resource (321 p.)
Classificazione	HIS027000HIS027060
Disciplina	359.4/22
Soggetti	Defensive (Military science) Sea control Strategy Unified operations (Military science)
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di contenuto	Table of Contents; List of Illustrations ; Preface; Introduction ; 1. A Tale of Two Wars; 2. Developing the Modern Concept of Anti-Access; 3. The Anti-Access Campaign and Its Defeat; 4. Three Anti-Access Victories; 5. Three Anti-Access Defeats; 6. East Asia: Most Formidable Challenge ; 7. Southwest Asia: Asymmetrical Tactics and Economic Threats; 8. Northeast Asia: Cognitive Anti-Access and Threats of Nuclear War ; 9. Central Eurasia: Russia and the Near Abroad ; 10. Breaking Great Walls: Issues of Modern Counter-Anti-Access Strategies ; Notes ; Bibliography ; Index ; About the Author
Sommario/riassunto	"This is the first book to examine the concept of anti-access and area denial warfare, providing a definitive introduction to both conceptual theories and historical examples of this strategy. Also referred to by the acronym "A2/AD," anti-access warfare has been identified in American strategic planning as the most likely strategy to be employed by the People's Republic of China or by the Islamic Republic of Iran in any future conflict with the United States. While previous studies of the subject have emphasized the effects on the joint force and, air forces in particular, this important new study advances the understanding of sea power by identifying the naval roots of the development of the anti-access concept. Rather than arguing against the reliance on maritime

forces--presumably because they are no longer survivable--Tangredi maintains that history argues that maritime capabilities are key to countering anti-access operations. "--
