Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Visual fields -- Optic nerve -- Unexplained visual loss -- Disc edema -- Motility basic concepts -- Abnormal motility patterns -- Cranial nerve, rarer patterns -- Motility exam -- Motility summary -- Nystagmus -- The pupil.
Sommario/riassunto	Written for both residents in training and practicing clinicians, this book offers a simplified yet comprehensive approach to central neuro-ophthalmologic problems faced in everyday practice. The text covers major clinical problems and defines an inclusive, yet relatively brief, list of causes that can produce each problem.
