Sommario/riassunto	This volume aims to provide insights into the process of knowledge construction in EFL/ESL writing - from classrooms to research sites, from the dilemmas and risks NNEST student writers experience in the pursuit of true agency to the confusions and conflicts academics experience in their own writing practices. Knowledge construction as discussed in this volume is discussed from individualist, collectivist, cross-cultural, methodological, pedagogical, educational, sociocultural and political perspectives. The volume features a diverse array of methodologies and perspectives to sift, problematise, interrogate and challenge current practice and prevailing writing and publishing subcultures. In this spirit, this volume wishes to break new ground and open up fresh avenues for exploration, reflection, knowledge construction, and evolving voices.
