Hermeneutik und Logik im Werk des Sayfaddin al-Amidi (Gerhard Endreß); Ibn 'Arabi et les categories (Denis Gril)
Sommario/riassunto	How did the reception of Aristotelian logic in the Arabic and Latin Middle Ages shape the development of theology? And how did theological issues influence the debates about logic and theories of

argumentation? The contributions in this volume examine these questions on the basis of key texts, thus shedding new light on the problematic relationship between logic and theology.
