

1. Record Nr.	UNINA9910811534603321
Titolo	Neonatal emergencies : a practical guide for resuscitation, transport, and critical care of newborn infants // edited by Georg Hansmann [[electronic resource]]
Pubbl/distr/stampa	Cambridge : , : Cambridge University Press, , 2009
ISBN	1-139-01215-0 1-107-19273-0 1-139-00715-7 1-139-00935-4 1-283-01741-5 1-139-00988-5 1-139-00826-9 1-139-01040-9 9786613017413 1-139-01046-8
Descrizione fisica	1 online resource (xix, 541 pages) : digital, PDF file(s)
Collana	Cambridge medicine
Disciplina	618.92/01
Soggetti	Neonatal emergencies Neonatal intensive care
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Title from publisher's bibliographic system (viewed on 05 Oct 2015).
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	section 1. Organization of neonatal transport -- section 2. Basics in cardiopulmonary resuscitation of newborn infants -- section 3. Classic and rare scenarios in the neonatal period -- section 4. Transport -- section 5. Appendix.
Sommario/riassunto	Covering the management of critically ill newborns from the first minute of life through the first 72 hours, this practical, evidence-based and clinically-informed guide will provide all members of the pediatric care team with the essential information to save lives and prevent disability. With chapters on neonatal transport, resuscitation, ventilation and ethical issues, the content is further illustrated with case studies illustrating the real-world aspects of identifying critical

signs and symptoms, diagnostics and treatment in multiple settings. As well as including numerous clear diagrams and summary tables, the text includes algorithms based on international guidelines to help navigate the reader through the delivery of care, and a comprehensive listing of drugs and dosages, serving as a quick reference guide when making treatment decisions. This is essential reading for pediatric residents, fellows and junior faculty, neonatal intensive care nurses, paramedics, obstetricians, midwives, anesthesiologists and emergency medicine physicians.
