

1. Record Nr.	UNINA9910811641803321
Titolo	Drugs, photochemistry and photostability // editors, A. Albini, E. Fasani
Pubbl/distr/stampa	Cambridge : , : Royal Society of Chemistry, , 1998 ©1998
ISBN	1-84755-071-1
Descrizione fisica	1 online resource (viii, 326 pages) : illustrations
Collana	Special publication ; ; no. 225
Altri autori (Persone)	AlbiniAngelo FasaniE (Elisa)
Disciplina	615.18
Soggetti	Drug stability Photochemistry
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Based on the proceedings of the 2nd International Meeting of Photostability of Drugs held in Pavia, Italy on 4-17 September 1997.
Nota di bibliografia	Includes bibliographical references and index.
Sommario/riassunto	Since Pasteur in 1846, scientists have been aware that many drugs are photoreactive, but until recently research in this area had been somewhat limited. However, since the introduction of acutely sensitive analytical methods, the realisation of the need to identify the photochemical properties of a potential drug as early in its development as possible and the increased attention to the phototoxic effect of drugs, more details are becoming available. Drugs: Photochemistry and Photostability presents the basic elements of the science, and serves as an excellent introduction to this emerging fie
