

1. Record Nr.	UNINA9910811806303321
Autore	Duzdevich Daniel
Titolo	Darwin's On the origin of species : a modern rendition // Daniel Duzdevich ; with a foreword by Olivia Judson
Pubbl/distr/stampa	Bloomington, Indiana : , : Indiana University Press, , 2014 ©2014
ISBN	0-253-01174-4
Descrizione fisica	1 online resource (348 p.)
Altri autori (Persone)	JudsonOlivia
Disciplina	576.8/2
Soggetti	Evolution (Biology) Natural selection
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Includes index.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Variation under domestication -- Variation in nature -- The struggle for existence -- Natural selection -- Variation -- Difficulties with the theory -- Instinct -- Hybrids -- The imperfection of the geological record -- The succession of organisms in the geological record -- The geographical distribution of life -- The geographical distribution of life, continued -- Affinities between organisms: morphology, embryology, and rudimentary organs -- Summary and conclusion.
Sommario/riassunto	Charles Darwin's most famous book On the Origin of Species is without question, one of the most important books ever written. While even the grandest works of Victorian English can prove difficult to modern readers, Darwin wrote his text in haste and under intense pressure. For an era in which Darwin is more talked about than read, Daniel Duzdevich offers a clear, modern English rendering of Darwin's first edition. Neither an abridgement nor a summary, this version might best be described as a "translation" for contemporary English readers. A monument to reasoned insight, the Origin illus
