

1. Record Nr.	UNINA9910811848403321
Autore	Williams Johnny E.
Titolo	Decoding racial ideology in genomics // Johnny E. Williams ; foreword by Joseph L. Graves Jr
Pubbl/distr/stampa	Lanham, Maryland : , : Lexington Books, , 2016 ©2016
ISBN	0-7391-4897-4
Descrizione fisica	1 online resource (177 p.)
Classificazione	SOC020000SCIO29000SOC031000
Disciplina	305.8
Soggetti	Race Human genome Genomics - Social aspects
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Table of Contents; Foreword; Preface; Acknowledgments; Introduction; Chapter One: Genomics' 'Race' Legacy; Chapter Two: Socialized Interpreters; Chapter Three: Racialized Culture-Genomic Nexus; Chapter Four: Racialization via Assertions of Objectivity and Heuristic Practice; Chapter Five: 'Bad Science' Discourse as Covering for Racial Thinking; Chapter Six: Reorienting Genomics; Appendix: Interview Questions; References; Index; About the Author
Sommario/riassunto	Although the human genome exists apart from society, knowledge about it is produced through socially created language and interactions. Genomicists' thinking is informed by their inability to escape the wake of the "race" concept. The book reveals that genomicists' preoccupation with race-regardless of good or ill intent-contributes to its perception as a category of differences that is scientifically rigorous.
