Sommario/riassunto	"In Thrive: Building a Coaching Culture for Collaborative Teams in PLCs at Work authors Thomas W. Many, Michael J. Maffoni, Susan K. Sparks, and Tesha Ferriby Thomas apply the best thinking in the profession to the process of building a highly effective coaching culture for collaborative teams in Professional Learning Communities at Work (PLCs). This follow up to the authors' earlier book Amplify Your Impact: Coaching Collaborative Teams in PLCs at Work uses the team coaching

structure they advocate to explore how coaches can build a coaching culture in PLCs to address adaptive challenges, providing the concrete ideas and strategies necessary for coaching teams toward effective and deeper implementation of the PLC process. Leaders and coaches will learn effective coaching strategies for essential PLC elements, as well as how readers can use the Strategy Implementation Guide (SIG) and Pathways for Coaching Collaborative Teams to develop and fully realize those elements. Through this book, coaches and leaders will learn the theory and strategies necessary to coach teams toward a fully realized implementation of the PLC process"--
