Sommario/riassunto	The entrance of women into managerial positions in significant numbers brings work and family issues to center stage, shifting the spotlight from issues of entry and equality of access to the consideration of the work-family conflicts and the difficulties posed on female managers. Looking at new approaches to enhance the work-family interface individually and in the firm, Work and Family: An International Research Perspective:*provides an overview on the antecedents of work-family conflict and the major consequences of work-family conflict, for well-being, productivity, and the stre
