Nota di contenuto	CONTENTS; Preface; Acknowledgments; Introduction; Chapter 1 A Global Perspective; Chapter 2 A Comparative Perspective; Chapter 3 An Empirical Perspective; Chapter 4 A Practical Perspective; Chapter 5 A Philosophical Perspective
Sommario/riassunto	Providing the most updated information on the current financial aid system, especially the Government-subsidized Student Loan Program, in China, this book employs a multi-perspective approach to studying this loan program. Adopting an interdisciplinary framework, the book goes beyond examining the technical aspects of setting up a student loan program; it puts the loan program in a larger context of social stratification, equality and social justice.
