Sommario/riassunto

This collective volume draws on the themes of intersectionality and overlapping policy universes to examine and evaluate the shifting functions, frames and multiple actors and instruments of an ongoing and revitalized cooperation in EU external migration and asylum policies with third states. The contributions are based on problem-driven research and seek to develop bottom-up, policy-oriented solutions, while taking into account global, EU-based and local perspectives, and the shifting universes of EU migration, border and asylum policies. In 15 chapters, we explore the multifaceted dimensions of the EU external migration policy and its evolution in the post-crisis, geopolitical environment of the Global Compacts.
