Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Based on author's thesis (doctoral - Washington College of Law, 2019) issued under title: High-profile withdrawal from international treaties : risk management in international negotiations and states' commitment to multilateralism.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	The legal framework of withdrawal from multilateral treaties -- Conceptualizing withdrawal -- The evolution of withdrawal -- Categories of withdrawal -- Rationales for withdrawal -- Regulating and enhancing orderly withdrawal from multilateral treaties.
Sommario/riassunto	"Withdrawal from Multilateral Treaties is the first comprehensive and systematic legal analysis of withdrawal in the context of the international law of treaties. It examines the political and legal framework around treaty making to explain the evolution of withdrawal over time and its increasing use. Parties to international agreements face not a dilemma but rather a trilemma, with three options in regard to interstate cooperation: compliance, breach, and withdrawal. In the age of global retrenchment, is there still room for international law to regulate the rules of the game, or will unilateral decisions overturn the current architecture of a multilateral global order?"--
