### Sommario/riassunto

Trade that straddles borders in Central Asia plays a vital role in the livelihoods of border communities and buttresses prosperity in often poor regions. By strengthening commercial ties, cultural understanding and deepening community relationships, border trade nurtures amicable relations between neighboring countries. This book examines the characteristics of trade intermediated by a network of bazaars in Central Asia and its significance for local economies. It uncovers the dynamic phenomenon of bazaars in propelling trade. Bazaars were invented in central Asia centuries ago; in their moder
