Sommario/riassunto

Why do people turn to personal connections to get things done?

Exploring the role of favors in social welfare systems in postwar, postsocialist Bosnia and Herzegovina, this volume provides a new theoretical angle on links between ambiguity and power. It demonstrates that favors were not an instrumental tactic of survival, nor a way to reproduce oneself as a moral person. Instead, favors enabled the insertion of personal compassion into the heart of the organization of welfare. *Managing Ambiguity* follows how neoliberal insistence on local community, flexibility, and self-responsibility was translated into clientelist modes of relating and back, and how this fostered a specific mode of power.
